

Yash Hogade

Full-Stack Developer | MERN Stack

PROFESSIONAL SUMMARY

Final-year Computer Engineering student (BE, SPPU) and aspiring **Full-Stack Developer** with hands-on project and internship experience building responsive, database-driven web applications using **JavaScript, React.js, Node.js, Express.js, MongoDB**, and **SQL**. Skilled in designing **RESTful APIs**, server-side routing, and reusable UI components, with a solid foundation in data structures, DBMS, and **Git/GitHub**. Seeking an entry-level Full-Stack Developer role to build scalable web applications and contribute to real-world software products.

MAJOR PROJECTS

Airbnb Clone

[View on GitHub](#)

Full-stack web application | Node.js, Express.js, MongoDB, EJS, REST APIs, Bootstrap

- Developed an accommodation listing platform using **Node.js, Express.js, and EJS**, supporting complete **CRUD operations** for property listings.
- Designed **RESTful routes** and an **MVC-style architecture** with reusable EJS templates and partials for clean, maintainable server-side rendering.
- Stored and managed listing data in **MongoDB**; built a responsive UI with **HTML5, CSS3, and Bootstrap**, tested via **Postman**.

Zerodha Clone

[View on GitHub](#)

Trading platform clone | React.js, Node.js, Express.js, MongoDB, REST APIs

- Built a stock trading and dashboard web application replicating core watchlist, order execution, and portfolio analytics features.
- Engineered reusable, state-driven UI components in **React.js** and built secure backend routing to handle user transactions.

NexaAI — AI Conversational Assistant

[View on GitHub](#)

AI-driven web application | JavaScript, React.js, Node.js, AI/ML APIs

- Engineered an interactive conversational assistant featuring real-time prompt streaming, dynamic chat history, and responsive layout.
- Integrated backend API communication to efficiently process natural language queries and return contextual responses.

MINI PROJECTS

Spotify Clone (Frontend)

[View on GitHub](#)

Music streaming web interface | HTML5, CSS3, JavaScript

- Built a **responsive** music player layout using semantic HTML5, CSS3 (Flexbox/Grid), and JavaScript **DOM manipulation**.

Simon Says Game

[View on GitHub](#)

Interactive browser game | JavaScript, HTML5, CSS3, DOM API

- Created an interactive memory game utilizing event listeners, state tracking, and dynamic CSS level animations.

Concert Ticket Booking System

[View on GitHub](#)

Interactive ticketing portal | HTML5, CSS3, JavaScript, Node.js

- Implemented interactive seat selection workflows, automatic pricing calculation, and client-side form validation.

- github.com/yashcod21er

SKILLS

Languages:

- JavaScript (ES6+)
- C++
- SQL
- HTML5, CSS3

Frontend:

- React.js
- EJS, Bootstrap
- Responsive Web Design
- DOM Manipulation

Backend:

- Node.js, Express.js
- RESTful APIs
- MVC Architecture
- Server-Side Routing
- CRUD Operations

Databases:

- MongoDB
- MySQL

Tools & Platforms:

- Git, GitHub
- Postman, npm
- VS Code, Figma

CS Fundamentals:

- Data Structures & Algorithms
- DBMS, OOPs
- Operating Systems
- Computer Networks

EDUCATION

B.E. in Computer Engineering

AISSMS College of Engineering, Pune
SPPU | CGPA: 7.81/10 | Exp. 2027

HSC – 74%

Abasaheb Vartak College

SSC – 88%

M.G. Parulekar Mitramandal School

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Issued: Aug 2026 | ID: w9Rn2-FahH

OTHER

Interests: Full-Stack Web Development, Software Engineering, Building Scalable Web Apps
